

# URBAN PLATES TORRANCE NUTRITION FACTS FOR MENU ITEMS

Urban Plates provides a nutritional analysis of menu items to assist you in balancing your meal choices. Our goal is to provide you with information to make sensible dining decisions. Consumption of 2,000 calories per day is generally used as the basis for nutritional advice although individual calorie needs may vary significantly. Please note that nutritional content may vary because of changes in growing seasons, different suppliers, slight variations in our recipes or variation in portion sizes. Not all items are served all year or in all locations. We may update this chart from time to time.

Urban Plates provides a nutritional analysis of menu items to assist you in balancing your meal choices. Our goal is to provide you with information to make sensible dining decisions. Consumption of 2,000 calories per day is generally used as the basis for nutritional advice although individual calorie needs may vary significantly. Please note that nutritional content may vary because of changes in growing seasons, different suppliers, slight variations in our recipes or variation in portion sizes. Not all items are served all year or in all locations. We may update this chart from time to time.
